Our organization is committed to operating at the highest level of quality while ensuring the health and safety protection of its employees in the context of occupational safety, and aims to preserve the natural environment in accordance with the principle of sustainable development.

Within this scope, the following principles have been established regarding the Integrated Management Systems for Quality, Environment, and Occupational Health and Safety (OHS):

- QUALITY**
Prioritize the needs and expectations of our customers by delivering our products on time and maintaining a high level of customer satisfaction.
- COMPLIANCE WITH LEGAL REGULATIONS**
Operate with excellence beyond all legal obligations and standards, based on the principle of “voluntariness.”
- TECHNOLOGY, ENERGY, AND RESOURCE USAGE**
Utilize current technologies in harmony with environmental and human health considerations to ensure effective and efficient use of resources.
- SAFETY AND CONSERVATION**
Take necessary measures to prevent workplace accidents and occupational diseases, avoid work losses, and raise employee awareness to ensure environmentally sensitive, highly efficient production. Optimize the use of natural resources, production inputs, and all materials to achieve high performance.
- TRAINING AND AWARENESS**
Increase the effectiveness and efficiency of our systems by developing environmentally conscious, respectful, and innovative human resources through planned and need-based unplanned training programs.
- CONTINUOUS IMPROVEMENT**
Comply with the requirements of our management systems and continuously improve their performance and effectiveness with the contributions of senior management and the participation of all employees.

We commit to increasing the awareness of our employees, implementing the standards’ requirements with their participation, and continuously improving the system.
